1st international Rock Mass Classification Conference 2024
Preliminary detailed program - Content still subject to change!

Hosted by Norwegian Geotechnical Institute

Conference supported by the International Association of Engineering Geology and the Environment

Exhibitors and Sponsors

1st international Rock Mass Classification Conference 2024 Preliminary detailed program - <u>Content still subject to change!</u>

Day 1 - Tuesday 29. October 2024						
Workshop and Ice Breaker						
Time	Time Title Organizer Location					
13:00 - 13:30	Registration			Entrance		
		RockMass Technolo	gies & Industry	Forstander-		
13:30 - 18:00	Digital Innovation Preconference Workshop	Partners		skapssalen		
				Forstander-		
18:30 - 22:00	Ice Breaker & Registration			skapssalen		

	Day 2 - Wednesday 30.	October 2024				
	Session 1 - Comparing and Correlating Rock Mass Classification Systems - Chair: Neil Bar					
Time	Title Presenter Affiliation					
				Sentralen -		
08:00 - 08:30	Registration			Entrance		
		Georg Erharter,				
		Lars Andresen				
08:30 - 09:00	Opening Ceremony	(NGI)	NGI	Marmorsalen		
			Massachusetts			
	Systematic rock classification for empirical tunnel		Institute of			
09:00 - 09:20	design	Herbert Einstein	Technology	Marmorsalen		
	KeyNote Lecture 1: Rock mass classifications and	Nezam				
	modern engineering design: a limit states and	Bozorgzadeh, John	University of			
09:20 - 10:05	probabilistic engineering design perspective	Harrison	Toronto, NGI	Marmorsalen		
	Design of rock support in low overburden and					
	hard rock conditions with the use of rock mass		Norwegian			
	classification systems and numerical analyses. A		University of			
	study based on the construction of the Hestnes	Jorge Terron-	Science and			
10:05 - 10:25	railway tunnel, Norway	Almenara	Technology	Marmorsalen		
	TBM tunnelling in Central Europe: a brief		iC Consulenten			
10:25 - 10:45	overview of the recent developments	Nedim Radoncic	ZT gmbh	Marmorsalen		
10:45 - 11:30	Coffee Break, Poster Session, Exhibition			Marmorsalen		
	Argillaceous soft rock in-situ test program in		Graz University of			
11:30 - 11:50	tunneling	Ines Metzler	Technology	Marmorsalen		
		Chrysothemis				
		Paraskevopoulou,	University of			
11:50 - 12:10	Rock mass classification of chalk, a UK perspective	Harry Saroglou	Leeds	Marmorsalen		
			Gecko			
12:10 - 12:30	Q-slope – rock slope engineering 10 years on	Neil Bar	Geotechnics	Marmorsalen		
12:30 - 13:30	Lunch			Marmorsalen		

1st international Rock Mass Classification Conference 2024 Preliminary detailed program - Content still subject to change!

	Day 2 - Wednesday 30. October 2024					
Session 2	Session 2 - Digital technology for rock mass classification and characterization - Chair: Prof. Thomas Marcher					
Time	Title	Presenter	Affiliation	Location		
	KeyNote Lecture 2: It takes two to tango and		RockMass			
13:30 - 14:15	three to commercialize	Shelby Yee	Technologies	Marmorsalen		
			Norwegian			
	Machine Learning Approach for Rock Mass		University of			
	Classification with Imbalanced Database of TBM	Tek Bahadur	Science and			
14:15 - 14:35	Tunnelling in Himalayan Geology	Katuwal	Technology	Marmorsalen		
	Enhancing Semantic Models in Digital Twin		Catholic			
	Representations of Rock Masses using Universal		University of			
14:35 - 14:55	Discontinuity Index	Amin Hekmatnejad	Chile	Marmorsalen		
	Unsupervised machine learning for data-driven					
	classification of rock mass using drilling data: How					
	can a data-driven system handle limitations in					
14:55 - 15:15	existing rock mass classification systems?	Tom F. Hansen	NGI	Marmorsalen		
15:15 - 15:45	Coffee Break, Poster Session, Exhibition			Marmorsalen		
	A critical discussion on the use of discrete fracture					
	network models in rock engineering practice: why					
	rock mass characterisation methods can benefit		University of			
15:45 - 16:05	from considering fracture connectivity	Davide Elmo, Ph.D.	British Columbia	Marmorsalen		
	Assessment the relationship between rock mass					
	classification systems using hybrid XGBoost					
	algorithms based on a database from mechanized		University of			
16:05 - 16:25	tunnelling projects	Jafar Hassanpour	Tehran	Marmorsalen		
			Resource			
	Application of the Geophysical Strata Rating in		Geotechnical Pty			
16:25 - 16:45	Sedimentary Environments	Terry Medhust	Ltd	Marmorsalen		
46.45.47.05	Al-Powered Geotechnics: Enhancing Rock Mass		University of			
16:45 - 17:05	Classification for Safer Engineering Practices	Ghader Saadati	Innsbruck	Marmorsalen		

17:15 - 18-15	RMCC Scientific Committee meeting	Marmorsalen
18:30 - 22:00	Conference Dinner	Kronesalen

1st international Rock Mass Classification Conference 2024 Preliminary detailed program - <u>Content still subject to change!</u>

	Day 3 - Thursday 31. October 2024					
	Scientific Farewell Dr. Evert Hoek - Chair: Dr. Georg Erharter					
Time	Title Presenter Affiliation Location					
			University of			
08:45 - 09:00	Biography of Dr. Evert Hoek	John Harrison	Toronto	Marmorsalen		
	IAEG: Reliably Mastering Rockmass Strength					
09:00 - 09:45	Estimation using GSI	Vassilis Marinos	President IAEG	Marmorsalen		
	ISRM: Contributions of Dr. Evert Hoek to Rock					
	Mechanics and Rock Engineering: "From intact					
	rock to rockmass strength and practical rock		EX VP ISRM			
09:45 - 10:30	engineering approaches"	Leandro Alejano	Europe	Marmorsalen		
10:30 - 11:00	Coffee Break, Poster Session, Exhibition			Marmorsalen		

Podium's Discussion - Chair: Dr. Georg Erharter						
Time	Time Title Discussors Location					
		Harry Saroglou, Davide Elm	o, Rita			
		Sousa, Are Håvard Høien, Nedim				
11:00 - 12:30	Podium's discussion	Radončić	Marmorsalen			
12:30 - 13:30	Lunch		Marmorsalen			

Time	Title	Presenter	Affiliation	Location
	KeyNote Lecture 3: Rock mass classification			
	systems: a useful rock mechanics tool, often	Leandro Rafael		
13:30 - 14:15	misused	Alejano	University of Vigo	Marmorsalen
	A critical view on the recommendation of Ribs of		Norwegian Public	
	Reinforced Sprayed concrete support in the Q-		Roads	
14:15 - 14:35	system	Are Håvard Høien	Administration	Marmorsalen
	Seismic Stability Assessment of Volcanic Slopes: A		New York	
14:35 - 14:55	Case Study from São Miguel Island, Azores	Rita Sousa	University AD	Marmorsalen
			NTUA/ GEOCON	
	The challenge of Rock Mass Classification of		ENGINEERING	
14:55 - 15:15	anisotropic rockmasses	Harry Saroglou	LTD	Marmorsalen
15:15 - 15:45	Coffee Break, Poster Session, Exhibition			Marmorsalen
	Rock Mass Classification for and ultra-high	Jonas Weil, Irmina	iC Consulenten	
15:45 - 16:05	Concrete Arch Dam	Pöschl	ZT gmbh	Marmorsalen
	Relationship between Geomechanical	Edgar Montiel,		
	Classifications and Underground Modelling: A	Esteban		
16:05 - 16:25	Case Study in Stratified Rock	Hormazabal	SRK Consulting	Marmorsalen
	A Review of the Q-System and the GSI based on		Aurecon Hong	
16:25 - 16:45	Recent Tunnel and Cavern Projects in Hong Kong	Philip Kam Kuen	Kong Limited	Marmorsalen
16:45 - 17:15	Closing Ceremony	Georg Erharter	NGI	Marmorsalen

1st international Rock Mass Classification Conference 2024 Preliminary detailed program - <u>Content still subject to change!</u>

	Day 2 and 3 - 30. and 31. October 2024					
	Permanent Poster Exhebition					
Time	Title	Affiliation	Location			
	The challenge of classification of argillaceous soft		Graz University of			
	rock (HSSR)	Ines Metzler et al.	Technology	Marmorsalen		
	Rock Mass Classification in the Digital Era: A					
	Transformation in Hard Rock Tunneling	Lasse Klein et al.	Herrenknecht AG	Marmorsalen		
	A Data-Driven Approach to Mapping Rock Mass	Mary Hurtgen and	Mine Vision			
	Discontinuities	Ryan Detert	Systems	Marmorsalen		
	Practical approach of the modification of RQD in RMR- A case study Railway tunnel in Himalaya, Rishikesh- Karanprayag Broad Gauge Rail Link	Gholamreza Keshtparvar and Vahid Abolhasani				
	project (PKG 5)	Rahnama		Marmorsalen		
	Rock mass characterization on Mars	Øyvind Dammyr and Eivind Paulsen	NGI	Marmorsalen		
	Transfer learning based tunnel boring machine	Paul Unterlass et	Graz University of			
	advance classification	al.	Technology	Marmorsalen		
	Introducing groundwater on GSI chart: a practical approach based on tunnel excavation	Cláudio Santa	University of Lisbon	Marmorsalen		
	Research on the failure mechanism of surrounding					
	rock in water-rich weakly cementing sandstone	Xin Kang and				
	strata	Xiongyao Xie		Marmorsalen		
	Enhancing Rock Mass Characterization with	Alla Sapronova et	Graz University of			
	Advanced Pre-processing of MWD Data	al.	Technology	Marmorsalen		
	Charting the Future of Rock Mass Classification:					
	Digitalization and Sustainability in Geotechnical		University of			
	Engineering	Hasan Eteraf et al.	Miskolc, Hungary	Marmorsalen		

Day 4 - Friday 1. November 2024					
Time	Time Title Presenter Location				
				NGI	
		Magnus Soldal,		Sandakerveien	
09:30 - 11:00	Visit of NGI's soil and rock mechanical lab	Halvard Smith	NGI	140
